@NuseedAustralia

#Paddockpride ends 30th November

Beyond Yield™

- Use novel seed technology to solve problems
- 'Output' vs. 'Input' emphasis
- Fundamentally improve crop value in canola, sunflower and sorghum
- Innovation and partnership through the value chain

| AUS grain sorghum | ✓ | | | |
| LAS Gen2 grain sorghum | | ✓ | | |
| Novel HT | | | | ✓ |
| Omega 3: | | | | |
| Concept 1: DHA Rich | | ✓ | ←.....→ | |

Summary

- Nuseed still have a good supply of RR Hybrid but supplies are not unlimited
- TT OP are in good supply and new varieties are being developed
- Monola has proven to be a profitable option for 2016 worth consideration for 2017
