GIWA STANDARDS REVIEW 2024

11 March 2024

The Grain Industry Association of Western Australia (GIWA) Inc is undertaking a review of grain receival standards (excluding wheat standards which are managed directly by Grain Trade Australia) in Western Australia in 2024. The current 2022/2023 CBH Public Receival Standards Western Australia and most recent GIWA Standards Review 2023 tolerances can be found at [GIWA Standards](#).

GIWA is a member of Grain Trade Australia and the Australian Oilseeds Federation and supports the grain industry's national self-regulated [Grain Trade Australia Standards Submissions process](#). GIWA also contributes to Grains Australia's grain classification and variety accreditation processes through cross-representation on the GIWA and Grains Australia commodity councils.

Purpose

The purpose of the review is to ensure that Western Australian grain standards are fit-for-purpose for end user requirements, supporting the translation of market signals back to the production sector.

Terms of Reference GIWA Standards Review 2024

1. **All standards in Western Australia will be considered for review, with the exception of wheat standards which are dealt with directly through the Grain Trade Australia standards review process.**

Standards describe the particular qualities and characteristics of grades of various grain commodities with reference to common characteristics, such as protein, moisture and screenings.

2. **Industry Good Service** The standards review process is an industry good service provided by GIWA to the Western Australian grain industry. Submissions are welcome from any organisation or individual, regardless of their financial membership status of GIWA.
3. **Commercial Prerogative** Receival standards set by GIWA are not necessarily the same as the GTA trade standards. Bulk handlers and container exporters reserve the right to adjust tolerances in response to seasonal or commercial conditions.
4. **Acknowledgement and Confidentiality** All submissions will be acknowledged by return email. Unless a specific request is received to treat a submission as commercial in confidence, submissions will be published on the GIWA website.
5. **Final Industry Advice Notice GIWA Standards Review 2024**
Will be published 15 July 2024 on the [GIWA website](#), after ratification by the GIWA Board.
6. **Planting Impact = Two Harvest Timeline 2025/26**
Standards changes arising from the review which may significantly affect planting decisions in Western Australia will be implemented in two harvests' time ie. in the 2025/26 harvest.
7. **Reference Information for Making Submissions**
